

Caitlin – Aspiring Barrister

Hi, my name's Caitlin. I'm in grade 12 at Stuartholme School. When I leave school, I really want to be a Barrister. Maybe start as a Solicitor. Depending on how I go there, if I love it there, I'll stay there or I'll move on to be a Barrister.

Especially in the last two years, the teachers have, as I come into Senior, they've really guided me through each of my subjects. I've come to love certain subjects more than others. But, it was in those subjects that I've picked particular areas and I've talked to them about it and they've recommended different programmes that I should try. Ms Newcombe, my SOR teacher, she recommended a law internship or experience programme, that I'll either do before I go to Uni or during my degree.

In the future, the kind of person that I'd really like to be is a role model to those who need it. Especially to young girls and teenagers in their journey to university or to finishing school. Just to demonstrate through my actions that they can achieve what they want to achieve.

My favourite Stuartholme moment was when I came here for the first time in grade 10. You were walking down the corridors and everyone smiled at you. Plus the first time I experienced the Spirit Circle that we do when everyone gets all spirited about Head of River or Mad Soph Day. Just being with everyone in that massive circle and jumping around and yelling, it's exactly what it's called, so I love it.
