

Emma – Aspiring Actress

My name's Emma. I'm in grade 11 and Stuartholme School. When I graduate from Stuartholme next year, I would love to be an Actress. It's something I've always wanted to do, from when I was very, very little. My parents have been fully supportive of it and it's the one field that I've always loved completely. To become an Actress, I would love to train at a school in Western Australia. I have many role models that have come out of the school and have been trained and absolutely loved it.

The Co-curricula activities that I do at Stuartholme are vocal ensemble, Stuartholme Choir, Theatre Sports which is part of the drama programme and outside of school, I do a lot of dancing and theatre, acting for film and television and singing.

I think the best part of Stuartholme is the way they include you and the way you feel at home here. You can be, or you can fall in love with sport, or theatre or music and they cater for all of it.

Stuartholme has a great leadership programme. It starts really early. In grade 10, you can be nominated to become a Green Ribbon Girl. I am one of them and it has many great opportunities. The best part of being a Green Ribbon Girl is being able to show the people around the school that are maybe thinking of sending their children here. You get to show them all the parts that you think are incredible and all the things that you love about it and hopefully they fall in love with it as well.
