

Ingrid – Aspiring Artist

Hi, I'm Ingrid and I'm in grade 12 at Stuartholme School. When I graduate from Stuartholme, I'd really like to do something in the arts, because it's something that I've been passionate about since I was very young. I think it would be amazing to later go into teaching art and inspire young people to create beautiful things like I've been inspired to do here.

I'd like to do a fine arts degree at Griffith University, so I can find my feet and see if that's definitely what I want to pursue. After that, maybe do a teaching degree.

Stuartholme and the teachers here have really helped guide me towards following my passions. Ms Hooper especially has helped me to develop my art skills. She's been my art teacher since grade 8. She's really followed along with where I am at and helped me to push my artistic skills further and achieve better things. I've found that that's really helped in helping me decide where to go when I finish school.

Currently, I'm in Vocal Ensemble and Stuartholme Choir. I'm also part of the core strength programme which is helping later to train for the cross country season. I'm also part of my parents choir at St Brigid's and part of St Lawrence's production of Oklahoma.

I really love to create anything. From cooking to sewing or just creating like a card for someone, because I think it's amazing to be able to create beautiful things, to make other people happy.
