Stuartholme BYOD 2024 Specifications

To ensure that the students all have devices that provide them with the best possible learning experience please ensure that the device purchased meets the following minimum specifications:

- OS: Windows 10 or 11 Pro or Education (**Not Home Edition**)
- Processor: Intel i5 minimum or AMD equivalent
- Memory: 8GB or higher
- Wireless: 802.11ac (5 GHz)
- Storage: 256GB SSD or higher
- Full Keyboard
- Touch Screen 11 inches & above
- Active Stylus Pen
- Battery Life: 8+ Hours
- Protective case
- 3 Year Warranty
- 3 Year Accidental Damage Protection (ADP)

Please note that Apple MAC devices are not fully compatible with all software and systems that the school makes use of in our learning programme and it is highly recommended that a Microsoft Windows 10/11 based device is purchased to avoid any disruption or impact on your daughters learning experience.

Please pay attention to the warranty requirements and ensure there is an Accidental Protection Plan included in the event of any damage to the device during that warranty period so that events such as cracked screens, damaged casing etc. are covered to avoid expensive repair costs.

Any further questions please contact the Stuartholme IT department at byod@stuartholme.com or (07)35106439
