Stuartholme is responsive to the diverse learning needs of students. Where applications are received for students who have individual learning needs, (as a result of disability, medical, psycho-social or other condition) the application in the first instance will be considered according to the enrolment process outlined above. In addition, an enrolment support process is undertaken to examine the resources of the school and the individual needs of the student. Consideration is given to the ability of the school to provide reasonable adjustments to support the learning needs of the student, and that these extra services and facilities can be accommodated, without causing the school unjustifiable hardship.

While considering enrolment of a student who has a disability or individual learning needs, the Principal (or Principal's delegate) will discuss the student's needs with the student, parent or guardian and advise the student, parent or guardian of the services and facilities offered by the school.

The School reserves the right to have members of its staff liaise with the student's current school, to more accurately assess the learning needs of the student.

The Principal may require:

1. parents/ guardians to provide medical, psychological or other reports from specialists outside the School, and / or
2. parents/ guardians to obtain an independent learning assessment of the student.

Failure to disclose a known educational need at any point throughout the application process may have significant implications for the ongoing support of a student seeking enrolment and may lead to the cancellation of the application and/or enrolment.

The School has strategies and programs in place to prevent harassment and victimisation. The School will ensure that staff and students know that it is not lawful to harass or victimise students with disability, or students who have associates with disability, or their carer, assistant animal and/or disability aid. The School also takes reasonable steps to ensure that staff and students know what to do if harassment or victimisation occurs.

Entrance may be accommodated at any time throughout the School year depending on circumstances, however, preference is given to a student requiring admission at the commencement of an academic year.

Completion of an Enrolment Application does not guarantee a confirmed place at the School.

Where the School is at capacity for an applicant's enrolment year, the applicant will be placed on a waiting list and the parents/guardians will be contacted should an enrolment place become available.

Whilst the School does its best to accommodate all enrolment requests, it is unable to guarantee a position to any student.

The School will not be involved in any family matters. In the case of all families, including divorced or separated families, it is the School's assumption and understanding that prior to contacting the School, all parents/guardians are in agreement to the application and possible enrolment of their daughter.

Unless otherwise advised or stated in Family Court Orders, all parents/guardians are responsible for paying the fees and should a place be offered, all parents/guardians must sign the Enrolment Contract.

Failure to pay initial and ongoing fees and costs associated with a student may lead to the cancellation of the application and/or enrolment.
