## Introduction

The Goals of Sacred Heart Education frame every activity and interaction at Stuartholme School. We strive to create a community that lives out the spirit of Cor Unum – which means 'One Heart.'

This Code of Conduct is underpinned by the third goal of Sacred Heart Education – The Building of Community as a Christian Value.

Stuartholme strives to develop and nurture a strong sense of community underpinned by Christian values.

To achieve this goal, parents should be made aware of the contents of this Code and expectations of their behaviour and they and all visitors to the school should be met with a welcoming and safe environment.

## Purpose and Application

Stuartholme is committed to working with parents, volunteers and our wider school community in the education of our students and acknowledges the valuable contribution of our parents and volunteers in this endeavour.

This Code of Conduct is implemented by Stuartholme to formalise to all parents and visitors to the school, our expectation of standards of behaviour. It applies to parents of students and visitors interacting within the school community. It also covers all forms of communication, whether written, spoken, or through social media. Stuartholme acknowledges the right of all persons to be treated with respect and dignity. We expect that all adults to which this policy applies will behave in a respectful, polite and reasonable manner towards each other, our students, teachers, employees, parents and all other visitors to the school.

Stuartholme has an obligation to provide a safe environment for its students and staff. Parents and other visitors to the school, by being members of the Stuartholme community, have an obligation to ensure that their conduct supports this requirement.

## Issues Outside of this Code of Conduct

This Code of Conduct does not apply to the conduct of students and staff.

## Acceptance

By entering into the Enrolment Contract, all parents are accepting this Code of Conduct in its entirety and acknowledge that they will at all times comply with its requirements. ## Use of Social Media

Social media can be defined as how we use technology to communicate and connect with others. Despite the range of positive uses for social media, there are also a number of ethical and legal issues associated with its use. Parents can ensure they abide by the laws and the School's expectations of its parents, by complying with the following:

- The School, its staff and members of its community should not be mentioned or discussed in a negative or defamatory way.
- Photographs of students in school uniform (including all sporting uniforms) represent the School and its students and should not be posted without the prior permission of the School (in writing).
- Photographs containing other students should not be posted without the express consent of the other child/children's parents.
- Email addresses of parents, staff and students should not be given to other people without their express consent.

## Consequences of Non-Compliance

The consequences for breaches of this Code of Conduct will be determined by the Principal and may include one of the following:

- The School may ban a parent, guardian or visitor from entry to School grounds or from attending co-curricular activities or other events.
- The School may direct that a parent/guardian may only communicate with members of staff through a nominated School representative.
- In cases of extreme or prolonged breach of this Code of Conduct by a parent, the School may terminate the enrolment of the child of that parent.
- The School may, where appropriate, involve other authorities.
